

K-LOVE, an FM station (92.1) in the Austin, Tx. area serves me in many ways by playing Christian music. It is positive and encouraging. It touches my soul with many beautiful and encouraging songs. K-LOVE helps our community because it brings GOD's light into the world and this community. God speaks to His children in many ways and K-LOVE is one of those ways. Many times I will be going through something that just doesn't make sense in this physical world and a song will come on that makes God's Will plain to me again. I also believe that the same thing is happening to believers and non-believers. K-LOVE is bringing many people into the light and introducing them to Jesus Christ and saving them. Please keep stations like K-LOVE on the FM airways. I support them financially and with prayer. I will be praying that your decision will be God's Will.
